Najam Sheraz to Release **Only Love** Worldwide on His Birthday, 2 August

Born out of nearly twenty-five years of witnessing a world transformed since 9/11, **Only Love** responds to a world marked by war, bloodshed, racism, Islamophobia, and division with a simple message: dialogue, communication, and understanding.

Created by **Pakistan-born singer-songwriter, producer, and founder of the Prayer for Peace Foundation, Najam Sheraz**. **Only Love** is a cinematic musical experience that invites people of every culture, faith, and background to rediscover the power of dialogue and meaningful human connection. A household name in Pakistan, Najam Sheraz released **ten studio albums** between 1996 and 2008 and achieved international recognition through hit songs featured in acclaimed Bollywood films including **Murder, Kalyug, Shaapit**, and **Haunted 3D**. Since transitioning away from commercial and Bollywood music in 2012, he has pursued a spiritual journey dedicated to inspiring dialogue, understanding, and positive change through faith, reflection, and the universal language of music.

Only Love marks his first English-language single. He chose to write and record the song in English after witnessing growing Islamophobia and an increasing distance between Muslims and the West, believing its message of dialogue, communication, and understanding could reach the widest possible audience.

Only Love will be released worldwide on **2 August 2026** across all major streaming platforms, accompanied by a cinematic music video.
